DRIVING CLUB CHARTER TAKEN

TURF ENTHUSIASTS MET TO ORGANIZE CLUB.

ENTHUSIASM EVIDENT

Petitions for Membership Will be Circulated and Arrangements for a Series of Wednesday Matinee Races Will be Completed.

A meeting of a number of business men and others interested in the turf was held at the office of K. L. Cobourn Wednesday evening for the purpose of organizing a matinee club in this city. The old charter of the Salem Business Men's Driving club has been taken over, and under it, a meeting cannot be held without first giving the stockholders five days' notice. As this was not done, no business could be transacted. Another meeting will be held next Wednesday evening, when officers will be elected and plans for holding matinee races this summer discussed.

The meeting Wednesday evening was well attended and indicated that the proposition to give matinee races here is meeting with favor. A petition to induce anyone who is interested to become a member of the club will soon be circulated, the admission fee to be $5. Only pneumatic carts will be used and the organization promises to be one of the best matinee clubs in this part of the state.

These races will in all probability form the most popular sport of the summer season to Salem people. In an effort to increase the interest and enthusiasm, clubs in Lisbon, Alliance and Sebring will be asked to join the local club, and give matinee races in each of these towns in order. The Lisbon club has signified a willingness to co-operate. The events will in this manner become more exciting and Salem citizens in general will no doubt do all in their power to insure the success of the proposition.

COMMITTEEMEN ARE RESTRICTED

Lisbon, April 14.—At the meeting of the Republican county central committee in Lisbon yesterday afternoon a new feature of the primary law was found in regard to the election of the county central committeemen. These men will be 77 in number, one from each voting precinct in the county. It has been found that in order to be elected on the central committee candidates must file a petition containing the names of 2 per cent of the voters in their precincts with the board of elections and they are ineligible to serve as judges or clerks of elections while their candidacy is pending. This will cause some rapid fire adjustment in some of the precincts of the county where it has been customary for central committeemen to act at primary and regular elections in spite of the fact that their names have been on the ticket. The meeting was extremely harmonious and outside of endorsing John S. McNutt for clerk of the supreme court for a second term and accepting the apportionment of delegates to the several conventions there was very little business disposed of.

Shortly before adjournment a motion was made that the newly elected central committee should meet on May 27 to organize for the coming year.

High Track Team Training.

The Salem high track team got out Wednesday evening to limber up their joints in preparation for the coming field meet this spring. A squad of 15 started into training and participated in field and track events. The Salem team will be composed of practically the same athletes as last year, although several aspirants are out for the track events. The boys have but three weeks in which to train for the first meet, that of the North County association, to be held May 7, at East Palestine.

BASEBALL FANS HAPPY TODAY

National and American Leagues Open 1910 Season

TEAMS IN PERFECT CONDITION

New York, April 14.—Another baseball opening day has rolled around. This annual red letter occasion in the calendar, while incidentally marking the rapid flight of time like a Christmas or a Fourth of July, is a national event which has taken on more and more importance as the game has grown in interest and importance.

It seems that every baseball opening day is looked forward to as a bigger day than any that has preceded it. That is true to a certain extent, since the game continued to spread year after year, and the annual recurrence of the trite assertions that "the interest in the game is greater this year than ever," also that "this promises to be the most prosperous year in the game's history," are not without objection of truth.

After an eventful winter, in which politics was aired more than usually freely, the various clubs have their houses in order and have done what they could do to strengthen and try to make a good showing in the race.

Whether the eight clubs in each league are any more evenly matched than before is something which only the race itself can demonstrate, but there are still enough strong clubs to keep the race for first place uncertain for a greater part of the year, and the friends of the smaller fraternity will go on hoping that they, too, have been strengthened and it is quite likely that one or two of them have—until it is proven to the contrary.

Clubs Have Been Strengthened.

Without doubt, three National league teams, Brooklyn, Cincinnati and St. Louis, teams which have not cut a formidable figure for pennants in late years, looks stronger than in a number of seasons. In the American league it is fairly reasonable to believe that New York, Chicago and Washington are likely to win more games than a year ago.

Almost without exception not one of the sixteen teams will take the field this afternoon without some change in the personnel, either in players or manager. Most of the teams got beneficial practice in the south. The schedule for today:

NATIONAL LEAGUE.

Pittsburg at St. Louis.
Chicago at Cincinnati.
New York at Boston.
Brooklyn at Philadelphia.

AMERICAN LEAGUE.

St. Louis at Chicago.
Cleveland at Detroit.
Boston at New York.
Philadelphia at Washington.

Baseball wagers and discussions of all the players in the major league will crop out anew Thursday evening when the results of the opening games of the season will be received in this city. The News will furnish the scores of both leagues by bulletin as in the past and the crowds of anxious fans can be looked for in front of The News office each evening.

ALL PERSONAL PROPERTY AT 100 PER CENT?

Some of the assessors of personal property are in a quandry whether to list such property at 100 per cent of its valuation this year of at 40 per cent of its valuation as in the past years.

Under the law there is no authority for listing property at any time for less than full value but the 40 per cent valuation has been in effect for the past 10 years in order to prevent excessively high taxes. This same plan is followed throughout the state.

The new 100 per cent valuation of real property now being made by the board of real estate appraisers will not become effective until the collection of December, 1911 taxes. The 1 per cent tax limit, if adopted, will not be effective until that time and unless the personal property assessors now follow the old rule of assessing personality at but 40 per cent of its value the holders of such property will be made to pay a rate of erty will be made to pay a rather high rate on 100 per cent valuation.

ORDER TO BE OBEYED BY BUCK MINERS

Miners of the Buck mine, east of Salem, gathered at the Hotel Metzger Wednesday evening and decided to respect the provision of the notice issued by Deputy Mine Inspector Alex Smith, of New Philadelphia, to mine the coal at least one half, instead of "shooting off the solid." As the inspectors, at a conference with the miners and operators Tuesday, refused to modify the order, the Buck miners decided there was nothing left for them to do but return to work under the enforcement of the order.

Consequently, they will go back to work Friday morning and make an effort to mine the coal without further trouble. They claim, however, that they cannot make as much money in this way, but all danger will be eliminated.

JULIUS WHITING MET FRIENDS AT SMOKER

Julius Whiting, Jr., of Canton, Republican candidate for congress from this district, was the headliner at a smoker held in the parlors of the Hotel Metzger Wednesday evening. Mr. Whiting took this occasion to meet his Salem friends and form new acquaintances. The prospects of his candidacy were discussed and plans made to wage a warm campaign.

GOVERNOR NOT EXPECTED TO VETO SUNDAY BASEBALL

Columbus, April 14.—It is not thought likely that Governor Harmon will veto the Anderson bill to provide for local option on the question of Sunday baseball. The vote in favor of the bill was so overwhelming that it is not thought likely the governor will feel like rejecting the bill even if he is against it. It is expected he will permit it to become a law without his signature. The author of the bill, Randall H. Anderson, of Youngstown, representative from Mahoning county, has been working to get the measure through for the past five years. He introduced it in his first term but was only able to get it through one branch of the legislature.

The bill provides that whenever 25 per cent of the electors petition for the right to vote on the question of whether Sunday baseball shall be allowed that an election shall be held to decide the matter. If a majority vote in the affirmative Sunday baseball may be played during a period of five years. An attempt was made to amend the bill so that a vote could be taken every three years, but this failed. The final vote on the bill was 24 to 8. The eight senators who voted against the bill are Alsdorf, Beatty, Cameron, Clevenger, Doaton, Patterson, Rathburn and Williams. Duvall and Mahaffey did not vote.

Wednesday May 4 Is Clean-Up Day

Salem's official clean-up day for the present year will be observed on Wednesday, May 4. This day was set by the board of health Wednesday evening, when it was decided that some day in the first week of May should be selected in order that there may be no misunderstanding, as one of the first days in May has always been chosen. Owing to the settled weather, the advisability of naming the day in April was discussed, but given up.

The mayor will issue a proclamation, calling attention to the date selected and asking the co-operation of all citizens with this work. All sanitary garbage and rubbish, if piled in the streets in front of properties, will be collected on May 4 by wagons which the service director will press into service for the purpose.

Clean-up day has been an annual event in Salem for a few years, but if the purpose of the health officer and mayor are carried out, there will be two clean-up days each year, the second one of the present year to be selected some time next fall. It is the suggestion of these officials that the town should be cleaned up twice a year, in the spring and in the fall.

SALEM TO DEMAND ERECTION OF TUBERCULOSIS HOSPITAL

In order to stir the county commissioners to action, Health Officer Dr. E. J. Schwartz recommended to the board of health Wednesday evening that some action be taken in regard to a tuberculosis home in Columbiana county, where patients of the county may receive free treatment. A state law compels each county to erect a hospital or to establish a home jointly with one or two other counties.

Recently the East Liverpool health board submitted a resolution to the commissioners requesting them to arrange for a tuberculosis sanitarium some place in the county, the entire expense to be shared by Columbiana county taxpayers, or to share the expense with an adjoining county. As no steps have been taken by the commissioners, Dr. Schwartz believed that some action by the Salem board would spurr them on to some accomplishment in this regard. He was instructed to correspond with the commissioners, calling their attention to the need of the hospital. The Salem board was of the opinion that Columbiana and Mahoning counties should unite in this work.

"There are several affected with tuberculosis, walking the streets of Salem now, who should be at some hospital but who haven't the means of going to the state institution at Mt. Vernon to take treatment," declared the health officer. Patients at the state hospital must pay for their treatment, while only the first stages of the disease are treated, but the county must provide treatment at a hospital free.

RIDDLE IS FINED $50 FOR ASSAULT

Lisbon, April 14.—George Riddle, son of the county infirmary superintendent, E. R. Riddle, appeared before Judge L. T. Farr yesterday afternoon and entered a plea of guilty to a charge of assault and battery, preferred by the county prosecutor. The charge grew out of an assault made on Editor W. S. Potts, of the Ohio Patriot. Riddle was at first charged with assault and battery with intent to kill and had entered a plea of not guilty. It was later found that this charge could not be substantiated and it was modified to a charge of assault and battery, to which Riddle plead guilty. George T. Farrel, representing Mr. Potts, made a statemen of the case to the court after which Attorney Lodge Riddle, representing the defendant, read to the court the different articles published in the Ohio Patriot, which he said led to the assault. During this statement of the case, the complaining witness became very angry at a statement made by Mr. Riddle in regard to a former pugilistic encounter in which the editor had been worsted. He proceeded to interrupt the argument and was called to order. Prosecuting Attorney Metzger made the closing statement for the prosecution, after which Riddle was asked to stand up while sentence was pronounced. He was sentenced to pay a fine of $50 and costs and stand committed until the fine and costs were paid. This amount was promptly paid and Riddle was permitted to go.

THREE TRAINS FOR PICNIC PROMISED

Local Agent W. O. Collins has received word from headquarters of the Pennsylvania company that three trains will be sent to Salem to convey the Industrial excursionists to Conneaut lake on Saturday, June 18. The picnic committee requested that there be three trains this year instead of two, as has been the custom. The last train will stop at Leetonia, Columbiana and East Palestine, and all trains will make these stops on the return trip.

SALEM BOY BECOMES A WIRELESS OPERATOR

Word was received Wednesday afternoon that John T. Meyer, son of Mr. and, Mrs. Leo Meyer, of East Fifth street, has accepted a government position as wireless telegraph operator on the steamship "Panama," which runs from New York harbor to Colon, Panama. Mr. Meyer has been studying "wireless" for some time in New York and has recently passed a rigid examination, and friends are glad to hear of his success. He started on his first three-week trip to Colon and return Tuesday afternoon.

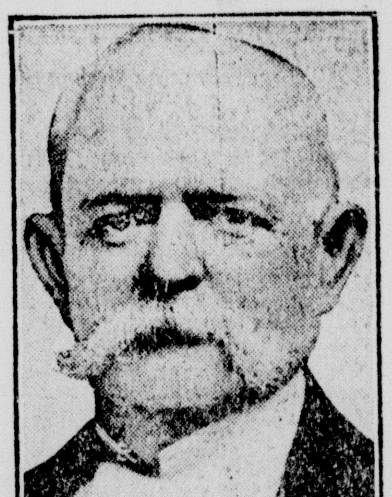
He Escapes Twenty Years' Imprisonment by Governor's Pardon.



PLENTY OF MEASLES AND WHOOPING COUGH

"Plenty of measles and whooping cough, but conditions are improving," reported Health Officer Schwartz to the health board Wednesday evening. The only contagion and infection existing in the city during March were two cases of scarlet fever and one case of typhoid fever.

Eleven deaths, 7 males and 4 females, occurred during March from the following causes: Pulmonary consumption, Bright's disease 2, heart disease, pneumonia 3, artine sclerosis, convulsions, asphyxia and liver trouble. Eight burial were made in Hope, 2 in Grandview and 1 in the Alliance cemetery. Ten male and 10 female births were reported, 2 of them being colored.

Sanitary Policeman David Goodwin reported that he had commenced his annual spring inspection of the sanitary condition of the city. He served 84 nuisance notices in March and cremated four animals. He suggested that the board ask council to construct a sanitary sewer on South Union street, as it is in a bad condition. The matter will be taken up at the next session of council.

Member Stewart stated that residents of Goshen avenue, between Eighth and Tenth street, had called his attention to the foul odor of the waste water in the ditches. Some of the residents have already petitioned council to construct a sewere there, but other residents have issued a protest. The health board will look up the matter and try to suggest some remedy.

Planted 500 Catalpas.

E. E. Hanna and three men spent Thursday planting catalpa trees on the Hanna farm near Coffee's school house. The trees were used to border the drive way and on the boundary lines of the farm.

TUBERCULOSIS SUNDAY APR. 24

HEALTH BOARD ASKS ITS OBSERVANCE HERE.

SERMONS ARE DESIRED

Efforts to Stamp Out the Great White Plague Will be Encouraged by General Observance—6,000 Deaths in Ohio Last Year.

At the monthly session of the board of health Wednesday evening, Health Officer E. J. Schwartz read a communication from the state board of health asking the co-operation of the Salem board in a request to the ministers of Salem to observe "Tuberculosis Sunday" on April 24, by delivering a sermon on tuberculosis, its causes and preventatives. The mat-matter met with the approval of the board and the mayor was instructed to issue a proclamation calling upon citizens generally to observe April 24 as "Tuberculosis Sunday," while the health officer was authorized to communicate with the ministers in regard to delivering sermons on tuberculosis.

This day way planned by the National Association for the Study and Prevention of Tuberculosis to be observed in all the churches of the country. In a circular calling attention to the ravages of the disease, issued by this association, it is stated that 200,000 people die annually of tuberculosis in the United States, and of this number Ohio is credited with 6,000. There are 13 die every hour. The disease is on the increase and a combined effort is being made to stamp out the plague, now recognized as a germ disease rather than a hereditary one.

In the sermon to be delivered by the ministers of the city, they will he asked to divide their talks into several heads, as follows: What tuberculosis is; predisposing causes; immediate causes; commonest early symptoms; tuberculosis in children; how it may be treated and cured; how it may be prevented; what is being done to prevent it, and how you can help. The attendants of church on Sunday, April 24, will be furnished with free literature issued by the state board of health, dealing with the above subjects.

Columbus, April 14.—The attorney general is preparing an answer to a request from the state board of health as to wthether local health boards can order a consumptive persons to cease working in a factory when there is danger that the person may communicate the disease to other employes. If boards have such authority it will establish a valuable precedent.

RAZING OF OLD CHURCH NEAR END

The old Methodist church which has stood for so many years as a landmark on Broadway has been practically razed, only a very small portion of the walls remaining. The ground will be ready for grading in a very short time. The nice weather has greatly advanced this work. Much of the work was done in March when unusually little can be accomplished in that month.

The plans for the new church all being perfected and practically all the plans being arranged for, the work on it will be started immediately.

A number of the members are availing themselves of the the opportunity of perpetuating their name or the name of some relative or friend by donating a memorial window in the new church. These windows will be placed in the new building by the building committee and dedicated to the memory of the donor.

Several have expressed their desire to secure a window and some have already done so. There will be 12 windows of this kind in the church and undoubtedly all will be presented as memorial tributes.

That the action of the Ohio senate on the Anderson Sunday baseball bill and the Black bill for the removal of mayors gave Governor Judson Harmon an uneasy night may be better imagined than described. The Anderson bill has passed both branches of the legislature and is now up to the governor for approval or veto. If he signs the measure he will incur the enmity of the church people throughout the state who are opposing Sunday baseball, while if he vetoes it he will arouse the antagonism of a large number of baseball enthusiasts who believe that there is no harm in Sunday ball games. If he does neither and allows the bill to become a law without his signature, he will be accused of dodging. The Anti-Saloon league blames the governor with the defeat of its pet measure, the Black bill, and experiences in past campaigns have shown that that organization does not hesitate to participate actively in gubernatorial campaigns when it is displeased with the action of a governor. And Mr. Harmon feels that he just must be re-elected in order to guarantee his nomination for president in 1912!

The agreement between Judge W. W. Hole and Attorney J. W. Clark to submit to the bar of the county the question of which shall be the Republican candidate for circuit judge from this county is assuredly the dignified method of solving this problem. That it will meet with the hearty approval of the voters is taken for granted, as it well may be. The attorneys of the county are thoroughly qualified to decide which gentleman should be the candidate this year and the remainder of the voters are quite willing, we believe, for them to decide the question.

The News trusts that there will be a general compliance with the request that "Tuberculosis Sunday" be observed in this city. The startling number of deaths from this now preventable disease should inspire all to make an active effort to spread the good health propaganda.

THE SECRET OF HIS SUCCESS

Friend Lost Voters' Good Opinion, But All of Them Were in Line for the Captain.

Captain Alf Gibson, land commissioner in the state auditor's office, used to take a very prominent part in politics down on the Neosho. Once the captain was a candidate for a minor office in his home county. His best friend, politically, was also a candidate, but for a different office. They campaigned the district thoroughly, but the captain's friend did not seem to be getting anywhere. He complained to the captain, and the future land commissioner decided to go on a little private tour of investigation. He went all over the district inquiring of the farmers their objection to his friend. They were suspicious and hesitated long before giving any reason, but it finally began to leak out.

"This friend of mine," said the captain, "was a particular kind of cuss. He washed his face and combed his hair in the morning, washed and combed again when he came in from the field for dinner and performed the same stunt in the evening. He used soap. I had never thought much about it, but when I investigated I began to find that therein lay the objection to my friend. The voters thought he was too fussy. I talked and reasoned with them, but it was no use. When the election came on the poor fellow was swamped. He hardly got a vote. His washing and combing defeated him."

The captain folded his hands complacently across his vest front and concluded:

"But all of those people voted for me."—Kansas City Journal.

WANTED TO DRY PENELOPE

Nothing But Electric Fan Could Arrange Darling's Fur as It Should Be.

Several persons marooned in a Broadway drug store during a downpour of rain learned a novel use for an electric fan, says the New York Sun. About four o'clock a woman carrying a diminutive fluffy white dog alighted from a taxicab and entered the store. That store keeps an electric fan ready for business the year round, but that day it was not going. The woman asked if the current could be turned on. Being assured that it could she said:

"Then would you mind turning it on for a few minutes? I want to dry Penelope. I had to carry her for a block in the rain and she got damp and bedraggled."

When it dawned upon the clerk that Penelope was none other than the scrap of a dog he suggested that she might be dried over the radiator.

"That would never do," said the woman. "She would look stringy. When hair of this texture gets damp the very best treatment is to dry it with an electric fan. It gives life and tone. I am going to call on a woman who lives above this store. She has never seen Penelope, but she has heard what a beautiful dog she is, and I want the little thing to look her best. If you will set the fan going I shall be so much obliged."

The clerk turned on the current and for ten minutes Penelope's tousled looks tumbled in the breeze.

PENNSY ENCOURAGES SCIENTIFIC FARMING

Continuing its efforts to stimulate interest in scientific farming, the Pennsylvania railroad has just issued a pamphlet entitled "The Pennsylvania Railroad and the Farmer." This booklet tells of the various things the railroad is doing to create traffic by co-operating with the farmer.

The Pennsylvania railroad began its agricultural campaign three years ago when it operated its first agricultural train. Since that time it has run educational trains and steamboats on practically all of its lines. It has distributed farming literature, established experimental farms, and undertaken the education of its agents along agricultural lines.

The pamphlet which the Pennsylvania has just issued, in summing up the work the company is doing, has the following conclusion:

"What does it all mean to the railroad? It means there will be more fertilizer to haul, more farm implements, more raw material from which these tools are made, more crops to haul, and more passengers to carry; it means that the railroad will be doing its duty to the public, to its stockholders in the intelligent exercise of its initiative, and, when reduced to a finality, that the railroad is performing its share of the work which must be done by the newly-formed partnership, railroad and farmer, if agricultural communities are to progress and prosper."

NO PUNISHMENT FOR COL. COOPER

Gov. Patterson Pardons Man Convicted in Carmack Murder

WAS SENTENCED TO 20 YEARS

Tennessee Shaken From End to End by Governor's Action and Serious Trouble May Follow—Cooper Pardoned Within Hour After Supreme Court Affirms Sentence—New Trial Ordered For Robin Cooper, the Colonel's Son.

Nashville, Tenn., April 14.—Within an hour after the state supreme court had affirmed the sentence of twenty years in the penitentiary imposed upon Colonel Duncan Cooper for the murder of United States Senator E. W. Carmack, Governor Malcolm R. Patterson signed a pardon which made Cooper a free citizen.

The court reversed the decision sentencing Robin Cooper, Colonel Cooper's son, to a term of twenty years in the penitentiary and remanded the case for a new trial. However, it is believed that, in view of the fact that the father has been pardoned, Robin never will go to trial again. In pardoning Colonel Cooper the governor said:

"Being thoroughly familiar with the record, having read all the testimony and testified to certain facts within my personal knowledge, it is neither desirable nor necessary to delay action. In my opinion neither of the defendants is guilty and they have not had a fair and impartial trial, but were convicted contrary to the law and evidence. The action of the supreme court in vacating the judgment as to Robin Cooper leaves the sentence of final conviction as to his co defendant.

"The proof showed that Robin Cooper killed the deceased and that Colonel Cooper did not fire a shot.

"Without reflections upon the court it is inconceivable in my mind and repugnant to every principle of justice that a man should be found guilty of murder who was not in a conspiracy to kill and when, in fact, did not kill."

Pardon Was Expected.

That Governor Patterson would pardon Colonel Cooper if the supreme court affirmed the sentence has been known all along, but the fact that the pardon was issued before the aged man left the capitol was not expected. Naturally, the political enemies of the governor and the entire prohibition element have renewed their attacks and may go far enough to renew the old charge that the governor conspired with the Coopers for Carmack's death. Nothing is too bitter for them to say and it is not improbable that serious trouble will follow.

Through all this turmoil Governor Patterson's forces are "standing pat" with him and are urging him to make the race for the third term, which he will doubtless do.

The public has persistently connected the killing of Senator Carmack and the vigorous prosecution of the Coopers with the prohibition campaign and the case is now inseparable from Governor Patterson's career.

All over Tennessee the bitterness is more intense than it ever was before. The most bitter denunciations have come from them. Jeff McCarn, district attorney general, declined to give out any statement, but in speaking of the pardon in private applied to the governor some strong words.

Captain G. T. Fitzhugh of Memphis, another one of the state's counsel in the trial in the court below, gave out a statement denouncing it as disgraceful haste, shocking to every sense of decency. He said:

"Sworn to execute laws, as construed by the supreme court, he has trampled the law under foot and, without a petition from anyone, has pardoned a cold-blooded murderer, who has always been a more potent factor with him than the interests of this great commonwealth."

TEDDY BURIED IN POSIES

Colonel Is Showered by Villagers When He Leaves Porto Maurizio.

Porto Maurizio, Italy, April 14.—When the Roosevelt party departed from here six thousand persons lined the half-mile route outside the station. Their cheers drowned the music of the band.

Bouquets flung with deadly aim carried away Mr. Roosevelt's glasses and filled the carriage to the level of his waistcoat pockets. Colonel Roosevelt declared that he had never seen anything like it except in southern California. The platform was crowded to the danger point. Colonel Roosevelt was for some time unable to enter the car.

Scalzo Was Murdered.

Wilkes-Barre, Pa., April 14.—As a result of an inquiry set on foot by Fortunato Tiscar, Italian consul at Scranton, it was discovered that Cataldo Scalzo, found dead at the bottom of a mine shaft near here, and been murdered instead of being accidentally killed, as had been supposed.

Eva Booth's Marriage Denied.

London, April 14.—The authorities of the Salvation Army declare that the report of the engagement of marriage of Eva Booth is without foundation.

MENTION OF HARMON CALLS FORTH CHEERS

Jefferson Day Diners Laud Ohio Governor

Washington, April 14.—The letter from W. J. Bryan, in which he harks back to his old initative theory of money, advanced in the first 16-to-1 campaign, was read at last night's Jefferson day dinner given by the Democrats of the district at the Hotel Willard.

It was bitter medicine for some of the Democrats to swallow, but they had sugar-coated it with a total of other talk about Republican disaffection and up-to-date issues.

The Democrats of the District of Columbia had planned to make this Jefferson day dinner an event of national importance. They had invited all the prospective presidential candidates in the party. Mayor Gaynor of New York declined in accordance with announced intention to stay at home attending to business, and then all the others followed suit. The result was that the District of Columbians had a lot of letters from presidential timber, but were obliged to dine with only the party leaders in congress as their guests.

Governor Harmon wrote that a legislative session with some vital propositions affecting the public interest in the early convention and a prospective hard campaign were unsurmountable obstacles to his attending.

The mention of Governor Harmon's name by Representative Francis Burton Harrison of New York was the occasion for a great demonstration. Mr. Harrison referred to Governor Harmon as "the most popular Democrat of the day, who would be re-elected governor of his state by the largest vote ever given to a candidate in Ohio."

The diners jumped up, waved napkins and cheered like mad for five or ten minutes. It was the only real demonstration during the dinner.

Prices Sure to Go Higher.

Plainfield, N. J., April 14.—Fire destroyed the poultry farm plant of S Aronson. About 8,000 eggs and 5,000 chicks were wiped out by the flames. In the incubator house, which was partially destroyed, 1,000 chicks made their advent yesterday.

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling when it may be wanted in case of an accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by Bolger & French.

A Doctor's Success With Grippe
HE PRESCRIBES
Brazilian Balm
WHICH NOT ONLY EFFECTS A CURE IN THE MOST CRITICAL CASES, BUT IS THE ONLY KNOWN REMEDY THAT LEAVES NO EVIL RESULTS BEHIND.

Miss Emma Rockwell, of Kewanee, Ills. writes under date of January 25: "My mother, over 70 years of age has been very, very sick with Grippe. Her head and lungs were affected. The fever was up to 103 degrees. The doctor gave us very little hope, but ordered us to give Brazilian Palm all the time. This stood first among the medicines. Nothing seemed to loosen her Cough and reduce the fever like the Balm. Although the Pneumonia was so severe and her case so critical, it brought her through all right. It is certainly a wonderful remedy, our chief reliance in the family; we all think we could not keep house without it."

We make the claim that Brazilian Balm cures Grippe without leaving any bad effects. We make the further claim that it restores the wrecks of Grippe to perfect health. You know the country is full of such wrecks to-day; people with Coughs, Asthma, Pleurisy, weak Lungs, bad Kidneys and all broken down from the ravages of Grippe. This proves how completely prescriptions and other remedies fail. Brazilian Balm never fails. Insist on having it and if your druggist refuses to get it, send to us at once and mention this paper. 25, 50 cts. and $1.00 a bottle. The $1.00 bottle contains a month's treatment FREE of Toxicola Tablets, the best tonic, strength and nerve builder in the world.

Belling Was Premature.

A large number of the too ardent friends of Charles Moff and Miss Millie Edwards tendered them an old-time serenading on Wednesday evening. Finally the truth was discovered and the youngsters postponed their bombardment.

The young couple will be united in marriage Thursday evening, at the home of the bride on Broadway.

Roy Roth, Salem's second baseman last season, has joined the Green Bay (Wis.) team for this season.

May Smart Set.

The May Smart Set contains several short stories that are above the average even of this magazine in interest and strength and cleverness of treatment. "What Faith is Fed On," by Olivia Howard Dunbar, is a story of a woman's sublime confidence in the man she loves that is calculated to pluck hard at the heart strings of the reader. "The Torch" by Fanny Heaslip Lea, recounts the efforts of an unhappy wife to obtain freedom after years of uncomplaining submission. With the end desired in plain sight, she is forced to relinquish it to insure the happiness of her daughter, who must never know. Clayton Hamilton, in "The Proper Thing," shows a picture of convention-ruled life on Riverside Drive, with an unexpected finale in less aristocratic and respectable quarters. "The Minister and the Man," by Billee Glynn, is a moving story of the more intimate side of a clergyman's life.

Mr. and Mrs. J. M. Woodruff, of Perry street, have returned from the South, where they spent the winter at West Palm Beach and Jacksonville, Fla.

CLEVER BOYS' CLOTHES

NO INCREASE ASKED BY THE Y. & S. EMPLOYES

Youngstown, April 14.—Motormen and conductors on the Youngstown & Southern line knew nothing about the demand which a local paper said they would make for an increase of 2 cents an hour in wages in order to be getting the same rate the Mahoning Valley employes are paid. All the motormen and conductors employed by the Youngstown & Southern line who have been with the company any length of time, are being paid as much or more per hour than the rate of the Mahoning Valley men.

A motorman and conductor seen Tueday said they knew nothing of any petition and an attempt to secure a raise. They said they were satisfied and were sure they were making more money than the Mahoning Valley men.

The Youngstown & Southern are not organized but that is not because they or the company is not favorable to unions, it is said.

The Mahoning Valley union cannot take in the employes of the Y. & S. and there are not enough employes of the Y. & S. to form a union of their own. Only 10 motormen and conductors are employed by the Y. & S. at this time, and it requires 40 men to obtain a union charter.

A Holding on Appointments.

Columbus, April 14.—Mayors can make appointments without regard to civil service regulations if there is no classification list, so the attorney general holds. As soon as the commission holds examinations and has an eligible list to select from then the mayor must appoint from that list.

Clergyman's Son's Testimonial of Tuberculosis Cure

To neglect a cold, bronchitis, lung trouble or Consumption is dangerous. We all know how prone people are to deny they have Consumption. It is a flattering disease, and the sufferer is filled with bright hopes of improvement. Call Consumption by its own dread name—and then—take Eckman's Alterative, because it is effective in Tuberculosis. No one need doubt about it—there is plenty of evidence from live witnesses. Investigate the following:

Amenia, N. Y., July 9, 1909.

Gentlemen: Prior to Feb., 1908, I was located in Rochester, N. Y., suffering with LaGrippe, which developed into Tuberculosis. My physician gave me one month to live. I was having terrible night sweats and mid-day chills and losing flesh rapidly, having gone from 155 to 135 lbs. I coughed and raised continually and became so weak that walking a few feet exhausted me. On my return home, my regular physician gave me little encouragement. My father, who is a clergyman, heard of Eckman's Alterative and induced me to take it. The night sweats and chills disappeared, my cough became easier and gradually diminished and in a few days I developed an appetite, the first in months. I am now in perfect health, back to 155 lbs. I feel certain that I owe my life to Eckman's Alterative.

(Signed) E. H. COWLES.

Eckman's Alterative is good for Throat and Lung Trouble and is on sale at Bolger & French's and other druggists. Ask for booklet of cured cases, or write to Eckman Mfg. Co., Phila., pa.

NO ENEMY MOLESTS TURTLE

After a Certain Period of Growth His Shell Renders Him Invulnerable.

Just as soon as a baby turtle emerges from the egg, off he scuttles down to the sea. He has no one to teach him, no one to guide him. In his curious little brain there is implanted a streak of caution based upon the fact that until a certain period in his life his armor is soft and no defense against hungry fish; and he at once seeks shelter in the tropical profusion of the gulf weed, which holds within its branching fronds an astonishing abundance of marine life. Here the young turtle feeds unmolested while his armor undergoes the hardening process.

Whatever the young turtle eats and wherever he eats it—facts not generally ascertained—one thing is certain, it agrees with him immensely. He leads a pleasant sort of life, basking in the tropical sun and cruising leisurely in the cool depths.

Once he has attained the weight of 25 pounds, which usually occurs within the first year, the turtle is free from all danger. After that no fish or mammal, however ravenous, however well armed with teeth, interferes with the turtle.

When once he has withdrawn his head from its position of lookout into the folds of his neck between the two shells, intending devourers may struggle in vain to make an impression upon him.—Harper's Weekly.

PROTEST MADE TOO QUICKLY

Stout Man Might Have Saved Himself Much Trouble and Some Vexation of Spirit.

In the scramble that followed a premature discharge of dynamite in the building lot the stout man lost a scarfpin. After he began to search for it he noticed that another man was poking around in the dust and debris.

"Sir," said the stout man, "I do not wish to give offense, but I must ask you to refrain from assisting me in this search. I appreciate your willingness to help, but as a means of self protection I long ago made it a rule never to allow strangers to assist me in a search for a lost article."

"Oh, very well," said the stranger. "You have no objection to my looking on, I suppose?"

He sat down on the curbstone and watched the stout man sift dust and overturn stones. After 20 minutes of painful stooping the stout man found a scarfpin.

"But it is not my pin," he said, dejectedly.

"No, it's mine," said the other man. "I heard it strike some place hereabouts. That was what I set out to look for, but when I saw how anxious you were for the job I let you go ahead. Your own scarfpin, if you want to know, is sticking to the flap of your left coat pocket."

"Well, well," said the stout man.

Through the Silly Novel.

How many boys and girls are led to marry on insufficient incomes through reading silly novels? Probably not a few, according to a certain large bookseller. "There's a class of novels, unhappily getting more numerous, that seem to aim at drawing young minds into a state of neurasthenic passion on the question of love," he remarked the other day to a customer. "They give an entirely false idea of marriage. Such prosaic matters as salaries, grocer's bills and the rise in the price of milk are never mentioned in these stories, and the silly girl who weds with her head stuffed full of the slush has a sharp awakening." And it's women that write the larger number of these idiotic romantic novels, more's the pity.

Explains His Goodness.

"I understand that you never taste liquor."

"No, I am thankful to say that I have always been abstemious."

"Do you ever use tobacco?"

"Never in any form."

"You have always been strictly moral in every way, I suppose?"

"Absolutely."

"Say, tell me one thing. Have you been good because you found it satisfying to be so, or because you hoped to be rewarded for your goodness?"

"In the first place I was good because I wanted to marry my employer's daughter, and after I got her I had to be good to hold my job."

Poison in Green Paper.

Herr Thaussig, a well-known Austrian financier, is dead of arsenic. It is said that he was poisoned by green wall paper in his office. Tip asks a paperhanger about green wall paper poisoning people, and is told that it ought to be as dangerous handling green paper day in and day out as being in a room papered with it, but that he never heard of any paperhanger or papermaker being so poisoned. And the same thing would seem to apply to other cases of poison said to come so frequently from green dye.

Wild Animals in New York City.

It is a remarkable fact that there are always more wild animals about that any but the expert has an idea of. For example, there are within 20 miles of New York city fully 50 different kinds—not counting birds, reptiles, or fishes—one-quarter of which at least are abundant. Or more particularly, within the limits of Greater New York there are at least a dozen species of wild beasts, half of which are quite common.—Country Life in America.

Mrs. Henry Wicklin, 61 West Green street, Salem, Ohio, says: "I have used Doan's Kidney Pills and they have so greatly benefited me that I am in a position to recommend them to all persons suffering from kidney trouble. I was afflicted with this complaint and my back ached intensely. Hearing good reports of Doan's Kidney Pills from a friend who had used them, I was led to obtain a box from Bolger & French's drug store. Before I had finished the contents, my condition had greatly improved. I am still continuing the use of this remedy."

The Sound Sleep of Good Health.

The restorative power of sound sleep can not be over estimated and any ailment that prevents it is a menace to health. J. L. Southers, Eau Claire, Wis., says: "For a long time I have been unable to sleep soundly nights, because of pains across my back and soreness of my kidneys. My appetite was very poor and my general condition was much run down. I have been taking Foley's Kidney Pills but a short time and now sleep as sound as a rock. I eat and enjoy my meals, and my general condition is greatly improved. I can honestly recommend Foley's Kidney Pills as I know they have cured me." Bolger & Fench.

BRIBERY PROBE WILL SOON END

Evidence Will Be Given Over to Grand Jury Early Next Week

SOME INDICTMENTS EXPECTED

Attorney General Denman Will Be Asked to See That Evidence Is Properly Presented—Representative Pears Too Hasty, He Says, in Testifying That a Dozen Other Members Knew as Much as He Did About Attempted Bribery.

Columbus, O., April 14.—Members of the Langdon committee, which is investigating charges of attempted bribery in connection with the passing of the Elson telephone bill, predict that the probe will be completed this week and that a resolution will be introduced in the house early next week to turn over to the Franklin county grand jury all the evidence brought out at the investigation.

It is said that Attorney General Denman will be asked to see that the evidence is properly presented to the grand jury. Committeemen express the opinion that one or more indictments will be returned.

Representative Pears, when recalled, said he had been too hasty in saying that a dozen other members knew as much as he did. He had no knowledge that any other member had been improperly approached. He had seen Cronin rushing about while the bill was on, saying "We don't want this," referring to proposed amendments, once with reference to the Woods bill.

Winters Unable to Locate Man.

Representative Winters, recalled, said he had been unable to find the man who approached him in the smoking room, and whom he did not know by name. Winters had already named Louie Bernard and John Murphy of Cincinnati as lobbyists who offered him "anything" he wanted for his vote. Cyrus W. Huling sent in a written denial that he had any part in framing the Elson bill.

The senate killed the Black bill, giving the governor power to remove mayors who refuse to enfore the laws, by a tie vote of 17 to 17. A vote to reconsider was also defeated.

On motion of Senator Duval the senate relieved the judiciary committee of the Evans judiciary election bill and ordered it engrossed and placed on the calendar. Senator Alsdorf's civil service amendments to his central board of control bill were agreed to and the bill was postponed and made a special order for this afternoon.

The senate voted to insist upon its amendments to the Lowery state normal school bill and asked for a conference.

In the house the Ervin bill to create the department of state tax commissioner was recommitted to the committee on cities with leave to report at any time.

Penton, Charged With Libel in Subsidy Scandal, Says It Is Comic Opera.

Washington, April 14.—John A. Penton of Cleveland, secretary of the Merchant Marine league, told the special congress committee investigating the ship subsidy scandal that the grand jury indictment recently returned against him here for alleged libel of Representative Steenerson of Minnesota was a comic opera indictment.

Mr. Penton also declared that the talk that he or the league had maintained a lobby in Washington to advance ship subsidy legislation was foolish. The league, he said, never spent a nickel on anyone in Washington for any purpose. Mr. Penton said that President Taft, former President Roosevelt, former Vice President Fairbanks, Speaker Cannon and a few other distinguished men had made addresses for the league.

Further Reforms For Lords.

London, April 14.—Lord Rosebery has announced his promised further resolutions for the reform of the house of lords. The gist of them is that the house in the future shall consist of lords of parliament, comprising some chosen by all the hereditary peers from among themselves, some nominated by the crown, others sitting by virtue of their offices and still others chosen from outside. The terms of tenure of all shall be identical, except the ex-officio members, whose membership shall coincide with their tenure of office.

In Bad Fix

"I had a mishap at the age of 41, which left me in bad fix," writes Mrs. Georgia Usher, of Conyers, Ga.

"I was unconscious for three days, and after that I would have fainting spells, dizziness, nervousness, sick headache, heart palpitation and many strange feelings.

"I suffered greatly with ailments due to the change of life and had 3 doctors, but they did no good, so I concluded to try Cardui.

"Since taking Cardui, I am so much better and can do all my housework."

Take CARDUI
J 41
The Woman's Tonic

Do not allow yourself to get into a bad fix. You might get in so bad you would find it hard to get out.

Better take Cardui while there is time, while you are still in moderately good health, just to conserve your strength and keep you in tip top condition.

In this way your troubles, whatever they are, will gradually grow smaller instead of larger—you will be on the up-grade instead of the down—and by and bye you will arrive at the north pole of perfect health.

NEGRO IS LYNCHED BY MISSISSIPPI MOB

Throat Cut, Strung Up to Pole and Set Afire

Meridian, Miss., April 14.—After he had killed former Sheriff John R. Temple and barricaded himself in the basement of the county jail here, Tom O'Neal, a negro, was shot by the police. O'Neal was then seized by a mob of 2,000 men, hanged to a telegraph pole and set afire. His throat was cut. Policemen rescued the body and stamped out the flames, which were consuming the negro's oil saturated clothing.

George Williams, one of ten other negroes, who helped O'Neal barricade the jail basement, also was shot, but not mortally. He was taken to a cell for safety. The mob clamored to lynch him.

The trouble started when O'Neal attacked the deputy in the prison. O'Neal got the deputy's pistol from him after a desperate fight in which Williams took part. Temple ran to aid the deputy and was shot dead. As Temple fell the two negroes rushed to the cellar followed by eight others and barricaded themselves in.

Danville, Ill., Has Lynching Scare.

Danville, Ill., April 14.—Rumors that an attempt would be made to assault the county jail in this city, home of Speaker Cannon, in an attempt to lynch Milton Armstrong and Thomas Brown, negroes, suspected of being the holdup men who fatally wounded Albert Cravens, a teamster, caused Sheriff W. S. Helmick to take steps to guard his prisoners.

STRUGGLE TO SAVE CHURCH

Pastor Contributes Salary to Pay Off Mortgage and Labors For Living.

Cleveland, April 14.—Paid a salary of $15 a month, Rev. Thomas L. Frazee, pastor of the Clark Avenue Friends' church, has contributed his salary to pay off the mortgage on the church and earns a living for himself and family by working as a mechanic in a motorcar works.

The facts became known here through the issuance by Dr. Frazee of a public appeal to save his church from the foreclosure of the mortgage. When the clergyman took charge of his congregation it had dwindled to seventy-five persons, and there was a debt on the church of $5,000 Through his efforts the debt has been reduced to $2,500, which must be paid before May 1. Dr. Frazee has raised $1,000, but finds himself at the end of his resources.

Many Doctors Prescribe proprietary medicines under a Latin name charging for the written prescription three times the cost of the medicine, and do not hesitate to condemn that self-same medicine if it is advertised or mentioned by the public. There are, however, many honest doctors who do not hesitate to openly recommend and prescribe such standard remedies as Lydia E. Pinkham's Vegetable Compound.

SIX FIREMEN KILLED AT NEW HAVEN, CONN.

Bad Blaze at City Jail; Inmates Transferred

New Haven, Conn., April 14.—In the fire that practically destroyed the county jail in this city, six firemen lost their lives. They were:

Captain Charles L. Chapman, Lieutenant William Doherty, Ladderman John E. Buckley, Hoseman James T. Cullen, Hoseman James Mortell, Hoseman Thomas J. McGrath.

When the fire was discovered there were 300 men and 50 women prisoners in the jail. The fire originated on the second floor of the workshop of the jail, and is believed to have started by crossed wires, although the story was circulated that it had been started by one of the prisoners in the hope that the inmates might escape.

The fire started in the shop of the Connecticut Chair company. When it was found that the firemen could not prevent the fire from spreading into the main building the sheriff called all his deputies and nearly the entire police force of New Haven and planned for a removal of the prisoners to a place of safety. Three companies of the Second regiment were also sent to the jail. The prisoners were loaded into vans, trolley cars, busses and automobiles and under guard of the guardsmen who transferred the men to the Central police station and the women to the Second regiment armory.

TABLES ARE TURNED

Thaw's Former Counsel Loses Suit and Faces Serious Charges.

New York, April 14.—The jury in the case of Clifford W. Hartridge against Mrs. Mary C. Thaw instituted to recover a balance of $94,000, alleged to be due for professional services rendered in the first trial of Harry K. Thaw for the murder of Standford White, the architect, handed to the court a sealed verdict finding in favor of the defendant.

Judge Holt said that the developments of this case call for a rigid investigation into the professional conduct of Mr. Hartridge. The court appointed Abraham Rose, who has been counsel for Mrs. Thaw in the case just ended, an officer of the court to do all that is necessary toward a thorough investigation as to whether Mr. Hartridge can be held guilty of perjury and other offenses.

One Conductor Who Was Cured.

Mr. Wilford Adams is his name, and he writes about it.—"Some time ago I was confined to my bed with chronic rheumatism. I used two bottles of Foley's Kidney Remedy with good effect, and the third bottle put me on my feet and I resumed work as conductor on the Lexington, Ky., Street Railway. It gave me more relief than any medicine I had ever used, and it will do all you claim in cases of rheumatism." Foley's Kidney Remedy cures rheumatism by eliminating the uric acid from the blood. Bolger & French.

Identification of the body found against a telegraph pole along the Pennsylvania tracks, at Massillon, Sunday, has been completed. The victim was George Maddrell, of Jonesborough, Adk.

There is no cough medicine so popular as Foley's Honey and Tar. It never fails to cure coughs, colds, croup and bronchitis. Bolger & French.

No Smoking For City Solons.

New Castle, Pa., April 13.—The ban is to be put upon the use of tobacco by members during council meetings here. President Thomas C. Dickson and Dr. Samuel Warner of select and common councils have decided it is not in keeping with the dignity of councils to have members smoke during meetings, so cigars are to be relegated.

A Clear Brain and healthy body are essential for success. Business men, teachers, students, housewives, and other workers say Hood's Sarsaparilla gives them appetite and strength, and makes their work seem easy. It overcomes that tired feeling.

TO DIG DEEP INTO GRAFT

New York State Senate's Investigation Will Be Thorough.

Albany, N. Y., April 14.—Senator H. W. Hill of Erie, chairman of the senate finance committee, called a special meeting of the committee today. Senator G. H. Cobb, majority leader of the senate, will submit the report of the sub-committee which was named to draw up a resolution for a general graft investigation. It is expected the resolution will be adopted by the senate and by the assembly soon after.

It was intimated that Senator Conger would be called back to Albany and asked to give additional information relative to the collection and distribution of corruption funds organized by bridge companies and brought to Albany in other years than in 1901.

ONE TRUST GOES BUSTED

Cordage Company Says Its Business Is Being Run at Loss.

New York, April 14.—The Standard Cordage company, commonly known as the cordage trust, which was formed in 1905 as a reorganization of the Standard Rope and Twine company, has obtained an order from Supreme Court Justice Blanchard directing all persons interested to show cause on May 31 why the concern should not go into voluntary dissolution.

The directors stated that the company is not making money at present and that the company's assets are not sufficient to afford reasonable security for persons dealing with the company.

Good results always follow the use of Foley's Kidney Pills. They give prompt relief in all cases of kidney and bladder disorders, are healing, strengthening and antiseptic. Try them. Bolger & French.

The Warren restaurant keepers have posted notices that short order meals will now cost 20 cents instead of 15 cents, the former prevailing price.

Foley's Kidney Remedy will cure any case of kidney and bladder trouble not beyond the reach of medicine. No medicine can do more. Bolger & French.

THE PARAGRAPH PULPIT

UNITARIAN.

Devil or Father?

Were you taught that God predestinated a great majority of mankind to eternal torture in a lake of burning brimstone, and that neither Christ nor any one else can save you unless you happen to be one of the small number of favored persons called the elect? If you believe it, you must think that the Deity is a devil of injustice and cruelty. But if you believe that he is just and kind, your loving Father, then you have the happiness of being a Unitarian, and your place is not in any of the churches that teach eternal predestination and damnation in their creed.

URGES THE CURBING OF FOURTH FIREWORKS

Mayor Carlile is in receipt of a letter from W. E. Mallalieu, assistant general agent for the National Board of Fire Underwriters, of New York, in which he urges the co-operation of all mayors in an effort to curb the careless use of fireworks on the Fourth of July. The board suggests two city ordinances that may be put into effect, the first prohibiting the discharge and retail sale of all fireworks and the second restricting their sale. There is a city ordinance in effect in Salem restricting the sale of fireworks.

ONLY ONE LIVERPOOL IN THE STATE OF OHIO

East Liverpool, April 14.—Through the request of President J. W. Moore, of the East Liverpool Business association, Congressman James Kennedy, of the Eighteenth district, took up the proposition of effecting a change in the name of the small town of Liverpool, Medina county, Ohio, as a movement for relief from the delay of mail matter intended for East Liverpool and for other good reasons. As a result of this effort Mr. Moore has received word from Congressman Kennedy that the name of Liverpool, Medina county, has been changed to "Valley City" by the postoffice department, and the town has been known by that cognomen since April 1.

Thus terminates a campaign inaugurated in this city a few years ago relative to either the change of the name of East Liverpool or Liverpool.

Through statistics furnished by Postmaster W. H. Surles, of this city, it was learned that about 10,000 pieces of mail matter in a year, intended for East Liverpool, had been received at the Medina county town first, and in many cases considerable delay was occasioned before the desired parties received the letters, while undoubtedly several pieces were lost at the mistaken destination. These facts were forwarded to Washington by President Moore, of the Business association.

It was about three month ago that President Moore undertook to see what action could be taken in reference to the change of the name of Liverpool, Medina county, so as not interfere with the sentiment here. In this connection he brought the question to the attention of Congressman James Kennedy. Mr. Kennedy consulted the postoffice department on the matter, and the first assistant postmaster general then favorably considered the proposition and informed the people of Liverpool, Medina county, that they must propose a change in the name of their town or the postoffice department would make the change.

Liverpool, Medina county, then took the matter under serious consideration. The ultimate decision was that they decided upon the title of "Valley City" for the little place.

CAPITAL OF THE STARK ELECTRIC INCREASED

That the Stark Electric Railroad company is in a prosperous condition and expects continued prosperity, can be concluded from the announcement that on Thursday the company's capital stock was increased from $1,000,000 to $1,500,000, divided into 15,000 shares of $100 each. The state fees amounted to $500.
